

SPINATHON FOR AUTISM PRESS RELEASE

On 29 October nine cyclists will be spinning non-stop for 6 hours in aid of children with autism.

The SPINATHON for autism will commence at 10:00 at the Paarl Mall and members of the public are encouraged to join the riders in their crusade and spin for this worthy cause.

Proceeds of this event will benefit children at SNAP, a centre for children with autism in Durbanville, in association with sponsors such as Indawo Painting and Waterproofing, Laska Wines, Gu, Virgin Active and Audio Visual Lifestyle Solutions.

Autism is a neurological disorder with marked deficiencies in communication, language delays, sensory processing disorder and inappropriate social behaviour. It currently affects 1 out of 110 children in SA and early intervention is crucial in erasing deficits. If correctly treated, many of these children grow to live productive and happy lives.

Your help is appreciated when Team Indawo will cycle for these children. Team Indawo consists of cyclists who will be participating in the Double Century (202 km) on 26 November and in preparation for this event has offered to spin for autism!

Let's show our support for these special children!
